

DIGITAL LCD PRESSURE GAUGE (Silicon Sensor)

Equinox™

Tank Pressure

Cal. Test Pump

Hydraulics Pump

Air Pneumatic Pump

Lubrication Pump

Vacuum Pump

Features

- Large Screen LCD Display with back light
- Peak Hold Facility
- Quick Sampling Speed
- Silicon Sensor with 0.25% Accuracy
- Excellent Stability
- Pressure Display : Bar, psi, Kg/Cm² / mpa

Application

- Water Treatment Equipment
- Hydraulic Equipment
- Pneumatics
- Process Control
- Compressors
- Refrigeration

EQ-DPG-801S

Specifications

Display	4 Digits LCD Display with back light & Peak hold Facility
Range	0.1Barupto 600Bar
Media	All Types which is compatible with SS316L
Units Selectable	Bar, psi, Kg/Cm ² / mpa
Operating Temperature	-20°C ~ 85°C, Store Temp. : (-20 °C ~ 85°C)
Pressure Port	G 1/4" M
Accuracy	0.25 %
Resolution	0.01Bar
Sensor Type	Silicon Sensor
Long -Term Stability	0.5 % F.S per year
Over Pressure Range	200 % of the Pressure Range
Burst Pressure	400 % of the Pressure Range
Power Supply	1.5V AAA battery x 2
Material	Housing : ABS IP 66, Pressure Port : 316 Stainless Steel
Weight	About 500g / pc
Dimension (Size)	78 (Dia) mm x 32 (Depth) mm X 105 (Length) mm

Order Code
